Earl Golz

8/2/79

Dear Earl,

If for any reason you or others want copies of these films, feel free. However, if you do make copies please place a mark on these so you can return these to me.

If you find anything worthwhile and make prints I'd appreciate a set.

While I have no reason to believe you'll find use for the Hughes film I'm loaning it also on the chance you or others want to see it.

I doubt it is clear enough for comparison with the Bronson film but it does show that window seconds before the shooting.

When you return these please insure them.

I've not had time to look at these. I'll be interested in anything you see.

And your story when you do it.

Best wishes,
